SUMMARY

Full Stack Laravel Developer with 5+ years of experience designing and developing scalable web applications using Laravel, PHP, React, JavaScript, MySQL, Tailwind CSS, and Bootstrap.

Experienced in building enterprise applications, AI-powered document processing systems, Elasticsearch-based search solutions, REST APIs, and third-party integrations.

Passionate about writing clean, maintainable code and delivering high-performance software solutions.

Experienced in AI-assisted frontend development using modern AI coding tools to build production-ready React interfaces from Figma designs while focusing primarily on Laravel backend development.

EDUCATION

(Bachelor of Computer Applications (BCA))	Veer Narmad South Gujarat University ,Surat	Graduated: 2020
---	---	-----------------

EXPERIENCE

Full Stack Laravel Developer (Surat)	Quebix Technology	March 2021 – Present
--------------------------------------	-------------------	----------------------

Responsibilities

- Developed and maintained scalable web applications using Laravel, PHP, and MySQL.
- Built and integrated REST APIs, third-party services, and cloud storage solutions.
- Customized web applications based on client requirements and business needs.
- Developed responsive frontend interfaces from Figma designs using HTML, CSS, Bootstrap, Tailwind CSS, and AI-assisted React development.
- Worked with Elasticsearch, queue jobs, and AI-powered document processing for enterprise applications.
- Optimized application performance, fixed production issues, and maintained existing systems.
- Collaborated with cross-functional teams to deliver high-quality software solutions.
- Assisted junior developers by providing technical guidance, debugging support, and code review.
- Contributed to the development and maintenance of enterprise products, including ERP, HRM, Accounting, CRM, SaaS, Non-SaaS, and multi-tenant Laravel applications.

PROJECTS

Dobllly

- Developed a Laravel-based eCommerce platform.
- Integrated AliExpress OAuth authentication.
- Implemented automated product import with variations.
- Developed order synchronization with AliExpress APIs.
- Configured Amazon S3 and Cloudflare CDN for optimized media delivery.
- Implemented AI-assisted product content generation and automated product management workflows.

Legalbacking

- Built Elasticsearch-powered legal search engine.
- Processed thousands of legal documents using queue jobs.

- Developed AI-assisted document extraction and structured data generation.
- Improved search accuracy and indexing performance.

Trikah

- Built responsive React pages from Figma designs using AI-assisted development workflows.
- Customized reusable React components and implemented RTL/LTR support.
- Collaborated on frontend implementation using modern AI coding tools.

Additional Project Experience

Contributed to multiple client projects, including SaaS, Non-SaaS, ERP, HRM, Accounting, CRM, and multi-tenant Laravel applications.

ACHIEVEMENTS

- Successfully delivered multiple client projects from development to production.
- Developed enterprise applications used by real clients.
- Built AI-powered document processing workflows.
- Developed scalable Elasticsearch-based search systems.
- Created responsive React applications from Figma designs.

SKILLS

🔒 **Backend**

PHP, Laravel, REST API Development

🔒 **Frontend**

HTML5, CSS3, JavaScript (ES6+), Bootstrap, Tailwind CSS, React (AI-Assisted Development)

🔒 **Database**

MySQL

🔒 **Search & Cloud**

Elasticsearch, Amazon S3, Cloudflare CDN, Wasabi

🔒 **Version Control**

Git, GitHub

🔒 **AI-Assisted Development**

AI-assisted Frontend Development, ChatGPT, Cursor AI, Claude AI, GitHub Copilot / Codex, Gemini
